# COUNTRY INTELLIGENCE GROUP

## About Us:

---

Country Intelligence Group, LTD was established in 2012 by a group of research and analysis professionals located in Dayton, Ohio who had a unique blend of data analytics, workforce development, and Department of Defense expertise. The company is a Management Consulting and Research Services firm that provides services to Government and commercial clients. The company's primary business activity occurs with the Federal Government, and specifically with the Department of Defense. The company's core capabilities include data collection, data analysis, research, survey execution, and consulting related to Department of Defense Workforce Development initiatives, foreign military sales, security cooperation, and training operations. The company also has a robust capability to execute large scale surveys and public opinion polls to inform public policy and to conduct market research.

## Company Information:

---

Country Intelligence Group is registered as a for-profit small business in the Federal Government's System for Award Management (SAM), maintaining eligibility for Federal Government Contract Awards.

The company holds a GSA Professional Services Contract (Contract# 47QRAA18D0066) with the following SINS:

- ◆ 874 1-Integrated Consulting Services
